Not worth a penny

By K. Atchariyakornchai

I don't know why most reviews are great.

I also purchased this because of other reviews.

But after I spent few hours to finish this Kindle book, I saw just few sentences useful for me.

Light on details, lack of examples and case support.

Worst parts are among the first half of the book.

Save your money for a cup of coffee, at least can boost up your energy for hours or a day.

An energy boost

By Mr. Ewan A. Menzies

Thanks Jeanna for the 10 minute money makers. It has been a real energy boost and inspired me to do a number of things i am confident will generate new business.

Some of these things may take me more than the 10 minutes the title suggests but happy to do this for the potential returns. I now have things down on paper and actions in place to carry out each day - I have set aside an hour for these. (That is how much i value what I picked up in the book!)

I would highly recommend this book to anyone in business - a great resource.

Loved it!

By Wizzy

What an inspiring book. It's packed full of tips on how to get a money mindset and start making money instead of repelling it (if you're me that is). I can't wait to start implementing the tips and start spending my new income. Easy to read and fun. I recommend this book if you need inspiration and help around financial rewards for your business.
