Great set!! Highly recommend this!!

By Monica R.

These are great for your kinder reader! Small words and easy to read. The stories are just like the rest of the Bob Books series. It comes with 12 books. Pictures include the box and pictures of the box itself, how it opens, and then the insides of some of the books. My son is in kindergarten and loves reading these little books. I hardly have to help him and I find them very age appropriate. He loves finishing a book on his own.. it encourages him to keep reading. I plan on buying the entire series (we have been reading from the library until this point.).

great

My 4 year old loves these! The last 4 books really bump them to the next level with more difficult series of events and more full sentences. We are working through all the BOB books and are so pleased! My 4 year old is reading way beyond his age level! I strongly recommend accommodating these with the "Teach Your Child to Read in 100 easy Lessons" book!!

We love Bob Books in my house!

By JerseyGRL

The Bob Books have helped my 5 year old daughter learn to read on her own. She would get very frustrated when she couldn't read all of the words in a book, then started telling me she didn't want to read with me anymore. Bob Books are wonderful for children who want to read on their own, but are not ready. The stories in this set are cute and a nice break between the level 2 set and level 3.
