Keeps getting better

By M. Brophy

When I first started this series I assumed it would be a mere offshoot of the Half-Orcs series that the author did so well with, but as it turns out this is a series that has its own legs to stand on. I assumed that the series would be satisfying but not compare to the series it was based off of, not only does it equal it but I'm sure there's a few people that will say it exceeds its source. The book was so enjoyable I didn't realize I had hit the end until I was reading the author's notes and its rare that I'm so into a book that I don't notice I'm about finished.

Now for a little more detail on what made this book get 5 stars. The overall theme in this book is one that I

can't deny has been done before but what theme hasn't been done already. With that being said it breathes life into the whole idea of characters being torn between good and evil and even when headed on a path to light doing some horrific things along the way. In reference to his characters he has always done well with his main, Jerico, and has put him from a character I enjoyed to one of my favorites, truly fleshing him out. But in this series he has created a new character that is a pleasure to read, Darius, I mean who doesn't love a dark paladin. Once again I've read other series with characters torn between light and darkness, but when something is done right and written this well you just can't deny it. I'm eagerly awaiting Paladins 3 and I'm hoping a book with Darius, a character that good needs his own book. I also want to give credit to whoever did the cover art, thought it was amazing.

A Truly Amazing Tale

By Amazon Customer

I'm a big fan of David Dalglish's work. He writes amazing stories, and they always have dark themes to them.

Clash of Faiths was as expected.

It continues the stories of Jerico and Darius from Night of Wolves, and everyone's least favorite character (Velixar) plays a fairly large role in it too.

If you are a fan of David's work, this is a must read. Naturally, I suggest reading the Half-Orcs series first though. The level of quality that CoF has is greater than most of his earlier works, especially the first couple books in the aforementioned series.

As always, I am thankful that David became an author. He stands at my all-time favorite author.

Clash of Faiths

By ESCAPE CRAVER

Let me start by saying that I'm not really an epic/sword and sorcery fantasy junkie. I started 2012 with the goal of reading as many different genres as I could and hadn't read anything like The Paladins yet, so I gave it a try. I am SO glad I did because I would have missed out BIG TIME.

It is rare that I will buy the next in a series directly after finishing a book, but after finishing Clash of Faiths, I immediately downloaded the next one. I find the conflicts, the morality issues, the friendships...all of it...it's all fascinating to me. I can't say it strongly enough how amazing the story of two unlikely friends is told in this series. Easily one of my top ten favorites.
