I recommend this book for any parent

By Knolls949

As a clinical psychologist w/ extensive experience working with children and families, I recommend this book for any parent.

It's full of helpful, fun, and easy suggestions for behavioral management and improving parent-child relationships.

Changes resentment by children at limits imposed into giggles and increased cooperation. Fosters awareness of choices

and personal accountability.

Have bought and given away a lot of copies of this book. I haven't found a better one.

Caregivers or Instructors of Any Age

By grandmajo

My daughter is a teacher and as soon as I told her that I had ordered this book she made the comment that she had heard excerpts from this book. She has and does attend several conventions (work related) and is very involved with her 3 kids ages 18,15, and 4 yrs old. I need to be more effective in dealing with the girls (ages 8 and 9) approach to homework. I like the content but I'm also dealing with Sibling Rivalry right now so haven't absorbed as much as needed. One thing about Faber & Mazlish books is that you get help and time to digest the feasibility of their advice. Nothing is set in stone and you have several different helpful solutions to different situations that arise. It's a handy book to keep close at hand
