so it's very like playing on the piano what you might listen to ...

By Gotta Learn

I would say the music difficulty is around early intermediate, overall. I didn't know this when I ordered it, but there are actually 16 songs, so it's very like playing on the piano what you might listen to on a soundtrack of the background music. I fell in love with the main theme song from Howl's Moving Castle, so I really like this. Thank you!

For the true "Howl's Moving Castle" junkie

By Amazon Customer

I bought this for my daughter for Christmas, and she actually cried tears of joy!!! She was able to transpose a lot of it from piano to guitar, which thrilled her even more. Some of the pieces look a bit difficult (there's one that needs 2 people to play... FUN!) but generally speaking I'd say they're for the late beginner to intermediate player. They do sound just like the pieces in the movie!!

Another awesome use would be to copy the more difficult pieces and make beautiful paper roses for the music lover in your life. Pinterest or YouTube should have instructions :-)
