From Library Journal

This work teaches us to connect our inner adult (logical conscious mind) with our inner child (instinctual or gut feelings) so that we may live conflict-free lives. Paul has worked extensively with this form of psychotherapy, which she calls inner bonding, and is the author of several books on the subject. Through loving behavior and acknowledgment of that "voice" within ourselves, the author claims that we can satisfy our own needs and not be totally dependent on others for happiness. She gives examples through her counseling work with those who want better family, marital, social, and work relationships and encourages outside help for special problems such as alcoholism, sex addiction, and codependency. This is a very helpful book for both individuals and couples who want to learn how to acknowledge their inner needs and address fears and false beliefs that often stem from childhood. Recommended for large self-help and therapy collections.

INNER BONDING: BECOMING A LOVING ADULT TO YOUR INNER CHILD BY MARGARET PAUL PDF

Inner bonding is the process of connecting our adult thoughts with our instinctual, gut feelings—the feelings of the "inner child"—so that we can minimize painful conflict within ourselves. Free of inner conflict, we feel peaceful, open to joy, and open to giving and receiving love.

Margaret Paul, coauthor of *Healing Your Aloneness*, explores how abandonment of the inner child leads to increasingly negative and destructive feelings of low self-worth, codependence, addiction, shame, powerlessness, and withdrawal from relationships. Her breakthrough inner bonding process teaches us to heal past wounds through reparenting and clearly demonstrates how we can learn to parent in the present. Real-life examples illustrate the dynamics of the healing process and show the benefits we can expect in every facet of our lives and in all our relationships.

Inner Bonding provides the tools we need to forge and maintain the inner unity that makes our family, sexual, work, and social relationships productive, honest, and joyful.

Love this book, thank you Margaret Paul.

By OwlJulie

This is a sequel to *Healing Your Aloneness*. It really could have been added onto the first book and republished that way. It is very helpful to learn about the inner child dialogue process between the adult and child inside your head. There are many more helpful diagrams in this book than there was in the first book. This book is not just a review of the first book, it is much more than that. It in many ways explains the concept more clearly, with stronger (if lesser) examples. This book is written loudly and clearly, whereas the first book had some ideas that weren't explained as well as they are in this one. This book is for those who want to do serious work on themselves, for those in recovery from addictions, from codependency, from addictive relationships, overeating etc. But it is also for anyone who, as the previous book's title states, is lonely and doesn't know why. *Inner Bonding* is the solution to loneliness because it teaches me to be there for

myself. This book is also spiritual, in that it reaches down to a deep level and transforms my life, daily. It teaches an inner habit. Truly an amazing habit and practice.

I should warn you that God is mentioned in this book as part of this process that is needed. If you read the first book, a 'higher power' is mentioned in that book. It is helpful to believe in some sort of higher intelligence to do this process, and one does not have to actually believe in God for it.

A Life Changing Book

By Neitousama

Incredibly deep book, this coupled with DBT therapy, has changed my life, (I have Borderline Personality Disorder) I never quite understood the talking to the stuffed animal thing, but damn does it work. I still ignore my inner child from time to time, but I have certainly learned a lot more about myself than ever before because of this book. I know with time, I will be able to apply the principals in this book more effectively, and ultimately, it'll lead to life-changing things.

Inner Bonding

By Shasha

Hi, I never figured out codependency until I read this book. I appreciate the examples and how to learn to stick up for your inner child...be your own parent. I know I abandoned myself many times. I don't defend myself...refuse to. I don't care what others think. I know I have resistance like she mentions to authority/controlling. She is also on the Youtube.com and answered two of my comments I wrote after hearing her videos. She is very nice/kind/understanding. I run from love so I am trying to figure out how to change. My dad had a strong temper and I am attracted recently to someone who was like my dad. I need to figure out my life. I can do it better from books than a counselor that doesn't really know me. I appreciate this. She also wrote Healing Your Aloneness. I am alone most of the time. I isolate myself to avoid rejection. I have many walls/defenses. I don't want to try to control me like a parent and treat me like a child. I have lost many friends who were not real friends. I have to decide why I have them as friends...just to whine/vent? I need to be with people who are my equal and respect/value me just as I am and not try to change me. This is a great book and her understanding is awesome/validating.
