The Amazon series is 10 times better!

By Richard/Christine

The book is a cute read for the younger set. However, it is NOT at all like the fabulous show on Amazon! A group of us (ages 7 to 70) binge watched the series and have rewatched 3 times. The book makes you think that there was no magic until the last pages. It also does not have the fabulous back story of the grandmother, her two friends and the disappearing boyfriend!

my daughter loves it!!

By essince

My daughter is a huge fan of the show so when I saw this book I had to get it! She loves it!!! It's so much more elaborate, of course, and detailed than the book. She enjoys reading it and comparing it to the series, like the description of the girls are quite different and so forth. And I'm so happy I can get her off the computer or t.v and read more!! I will be buying this authors other books for sure!

Daughter Loved it.

By EDSMammaOf4

My daughter loved this book. As a parent, I found it very fun to read with her. It was very wholesome and fun story. My daughter (9) enjoyed the bits of humor thrown in throughout the book. There is a show based on this book that my daughter also enjoyed.
