No code

By Devan

This book is worthless because you do not get access to the lab. DO NOT BUY. The only way I can find to actually get the code is through the overpriced bundle my school offered me. A great example of what happens when schools cut deals with these companies, it is the student who pays.

The Worst Product! And The worst experience with the seller!!!

By Olga

Horrible, if you selling a lab book, it should come with the lab CD!! Took FOREVER to make it here

Sigh...college students just can't get a break.

By CoJo

I already had the textbook from a friend so I just needed the lab book, listed for under 30 bucks here, i thought that was perfect. Sadly what the other reviewers said is true. This lab book doesn't come with an access code for the vlabs (which was required by the class). I was forced to re-buy the textbook and the lab,

as a bundle from the school for \$207!! Talk about a big blow to my budget. I was eating Ramen for the rest of the month.
