ORDER OF ALPHAS: REUNION BY ERIS SAGE PDF

Will a sinfully curvy woman from his past make this surly shifter reconsider his vow to remain a lone wolf? Silas has no family, no pack, and that's exactly the way he likes it. He's convinced that his past failure caused him to lose those he loved, so no matter what his old friend Orion says, he won't join the Order of Alphas or any other pack. But the beautiful, curvaceous human he runs across might be just the distraction he needs.

Reina Parrish never figured out what had drawn her to Silas all those years ago, but it doesn't matter now because she's moving on with her life and is close to having the family she's always wanted. But when Silas shows up out of the blue, her plans are tossed asunder.

Her mind tells her to say away. Her body demands she get closer. But when danger approaches, Silas might be the only thing standing between her and the loss of all she holds dear.

Reunion, the third book in the Order of Alphas Series, is set five years prior to the events in Fever, and it is a standalone story with an HEA.

Given as a free arc for an honest review.

By Tanja

This is a nice short lunchbreak read. I'm not known to this particular world of shifters but this reunion does want to make me get the other previous books. You can read this as a more or less stand alone, not too many characters are involved to loose track of them.

For the story itself : (I'll try to keep spoilers out of it)

It's got a nice rush to the storyline, no beating around the bush. I disliked Keith from the start and the only reason I'm giving this four stars is that there was a huge missed opportunity to make that conceited bastard pay for what he did. As is, he didn't even put up a fight, so no wonder Silas wants to wash him off... I would have toyed with him, really make him pay, give false insecurity... It's possible I'm a bit vindictive when getting my anger out!

Conclusion :

If you like a well written, lustfull, fast paced story with a HEA, then Reunion is the e-book to get on your device of choice.

Nice Read

By kimberly a meadows

The story was a great addition the Order of Alphas series, perhaps more a of prequel in some respects. In a nutshell, Silas meets his mate Reina. They share a steamy night of ecstasy and he walks away but not without some angst. He views himself as a loner holding himself accountable for the annihilation of his clan. Fast forward 5 years. The stakes are higher and walking away is not an option. The book is short (sigh) but the passion between the main characters adds just the right amount of spice. Even the gruesome bits makes this tale fun to read. I eagerly await the next book in the series.

Past and present.

By M. Hallahan

This was a quick read that covers a span of time but nothing's missing. Silas and Reina met, it was immediate sparks then an abrupt disappearance. Years later he's drawn to her only to find she's not alone. Can he get his family, does he want a family? Well in the end, years later, it all brings us back to the present issues at hand.
