Repetitive read.

By catprincess

The book was repetitive throughout especially towards the end. It is an interesting story from one woman's perspective though it is much of a stretch. If you take it as a book written by someone who is highly imaginative then it is an interesting read. There are 2 authors in this book, but the main author peppers in some interesting theories. For example, her take on Jesus- (was half ET) would be a stretch for anyone very religiously inclined; although it would be tit for tat for those who are not. As a science fiction story- it probably would make an interesting movie. I did not give it more stars because it was written more as a hodge-podge than a thoughtful written book
