Interesting

By Patrizia Trotta

This book is part of a series on the same theme. Readable and enjoyable no doubt, but there is something about this series which, I suspect, addresses the unconscious more than the conscious mind. Any benefits, therefore, would tend to be relegated to that part of the psyche IMO. It is more for those who like this type of book and have come across and appreciated the author's other works.

Great book. Great series!

By Diana M

This... and the other books in this series... are a wonderful journey into multidimensionality! Lots of concepts I was already aware of... along with lots of concepts that I wasn't...

I love these books. They reinforce all that I am learning about the ascension process

By Joan Wallace

Instead of telling you about the ascension process, the author does a beautiful job of drawing you into the story line I'm hooked and can't wait to read the next book
