Review

“[Oedipus the King] is Sophocles’ most famous play and the most celebrated play of Greek drama . . . Aristotle cites it as the best model for a tragic plot . . . Freud recognized the play’s power to dramatize the process by which we uncover hidden truths about ourselves . . . Sophocles is more interested in how Oedipus pieces together the isolated fragments of his past to discover who and what he is and in tracing the hero’s response to this new vision of himself.”—from the Introduction by Charles Segal

About the Author

Sophocles was born at Colonus, just outside Athens, in 496 BC, and lived ninety years. His long life spanned the rise and decline of the Athenian Empire; he was a friend of Pericles, and though not an active politician he held several public offices, both military and civil. The leader of a literary circle and friend of Herodotus, he was interested in poetic theory as well as practice, and he wrote a prose treatise *On the Chorus*. He seems to have been content to spend all his life at Athens, and is said to have refused several invitations to royal courts.

Sophocles first won a prize for tragic drama in 468, defeating the veteran Aeschylus. He wrote over a hundred plays for the Athenian theater, and is said to have come first in twenty-four contests. Only seven of his tragedies are now extant, these being *Ajax*, *Antigone*, *Oedipus the King*, *Women of Trachis*, *Electra*, *Philoctetes*, and the posthumous *Oedipus at Colonus*. A substantial part of *The Searchers*, a satyr play, was recovered from papyri in Egypt in modern times. Fragments of other plays remain, showing that he drew on a wide range of themes; he also introduced the innovation of a third actor in his tragedies. He died in 406 BC.

E.F. Watling was educated at Christ's Hospital and University College, Oxford. His translations of Greek and Roman plays for the Penguin Classics include the seven plays of Sophocles, nine plays of Plautus, and a selection of the tragedies of Seneca.

It will certainly assist you to obtain simple method to download and install the e-book [*The Theban Plays: King Oedipus; Oedipus At Colonus; Antigone \(Penguin Classics\) By Sophocles*](#).

THE THEBAN PLAYS: KING OEDIPUS; OEDIPUS AT COLONUS; ANTIGONE (PENGUIN CLASSICS) BY SOPHOCLES PDF

‘O Light! May I never look on you again,
Revealed as I am, sinful in my begetting,
Sinful in marriage, sinful in shedding of blood!’

The legends surrounding the royal house of Thebes inspired Sophocles (496–406 BC) to create a powerful trilogy of mankind’s struggle against fate. King Oedipus tells of a man who brings pestilence to Thebes for crimes he does not realise he has committed, and then inflicts a brutal punishment upon himself. With profound insights into the human condition, it is a devastating portrayal of a ruler brought down by his own oath. Oedipus at Colonus provides a fitting conclusion to the life of the aged and blinded king, while Antigone depicts the fall of the next generation, through the conflict between a young woman ruled by her conscience and a king too confident in his own authority.

E. F. Watling’s masterful translation is accompanied by an introduction, which examines the central themes of the plays, the role of the Chorus, and the traditions and staging of Greek tragedy.

I like this translation as an English teacher

By EnglishTeacher

I like this translation as an English teacher, but I thought it was a bit pricey for the three plays when you can get the same trilogy at other stores for less.

of course it's predictable

By A Customer

The previous reviewers who denigrate Oedipus as "predictable" only reveal their own ignorance. Any member of an Ancient Greek audience already knew the story of Oedipus, it'd be like complaining that upon going to Easter Mass, you found the story of the Crucifixion to be predictable; the point was never to have a twist, but to create a relationship between the characters and members of the audience, placing the viewers in direct relation to the mystery of life. The language is gorgeous besides.
